
Mudar Hostname de servidor Zimbra

Categoria : Linux

Publicado por [Anderson](#) em 07/2/2011

Mudar Hostname de servidor Zimbra Pare o servidor Zimbra: `su - zimbra - c "zmcontrol stop"` Rode o Idap manualmente como root: `su - zimbra - h ldap://mail.oldname.org:389 ldapi:/// -F /opt/zimbra/data/ldap/config` Depois tente alterar o hostname com esse comando: `su - zimbra - h libexec/zmsetservername -n mail.newhotness.net` Se ocorrer algum erro tente assim: `su - zimbra - h libexec/zmsetservername -o mail2.oldname.org -n mail.newhotness.net` OBS: Estou considerando que você já alterou o hostname da máquina. Referência: [Up to Something](#) Have fun.
